FraudLens

Claims / MH12EX1203

CONTROLLED LAYOUT FIXTURE · NO LIVE AI VALIDATION

PRIVATE EVIDENCE REVIEW · SAVED RUN / HISTORICAL RECORD

Case visual-claims · Report 21 Oct 2026, 08:00:00 UTC

Assessed risk: Medium

Heuristic score 0.85

Low	**Medium**	High

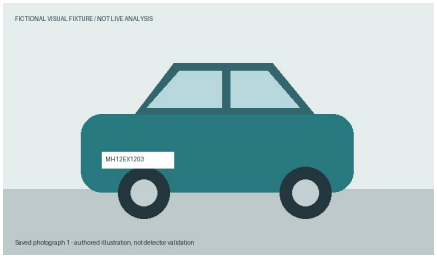

Category markers do not imply numerical ranges. Scores are not fraud probabilities.

Saved research baseline · Recorded analysis · human review required

This assessment covers only the saved run and evidence. Earlier reports remain historical when new evidence arrives. No heuristic score is a calibrated fraud probability.

One-minute case summary

Claims application for MH12EX1203. Declared claim: INR 48,000. 6 saved photograph(s); 2 recorded concern finding(s). Applicant statements and automated observations require independent review.

Saved evidence preview

Main supported findings

- The saved registration text is shown alongside the declaration for review.
- The saved Software field names an editing tool; this has benign explanations and does not prove manipulation.

Evidence / check coverage — separate from risk

Photographs	Required execution coverage	Required unresolved inputs
6	11 completed check(s)	0 unresolved check(s)

Optional and zero-weight experimental results are shown separately; they do not create a numerical risk score.

Main findings · check results

Labels distinguish concern, no concern found, inconclusive, unavailable, not run and not applicable. A completed check is not necessarily a clean result.

Identity

01 / Registration reading

1 concern

Compare readable registration text with the applicant declaration.

Evidence examined: Photograph 3

Evidence	Declared plate	Extracted text	Comparison	OCR confidence
Photograph 3	MH12EX1203	MH12EX1208	mismatch	1.0

Confidence describes OCR text recognition only. No evidence crop was saved; this report does not fabricate one.

Saved decision parameters: plate ocr confidence concern = 0.5

Interpretation: The saved registration text is shown alongside the declaration for review.

Saved contribution: 0.2550 · registered weight 0.3.

Uncertain: this observation does not establish the full application or intent.

02 / Photographic coverage

1 inconclusive

Inspect declared photographic coverage; view labels require verification.

Evidence examined: Case / linked records

Evidence / declaration	Recorded observation
Case-level observation	distinct views: 4; required views: 4; plate seen: True; execution state: inconclusive

Experimental / excluded where the saved registered weight is zero. Raw classifier outputs are not fraud probabilities. View labels do not verify the same vehicle.

Interpretation: Photo-slot labels and visual variety do not establish that all views show one vehicle.

EXCLUDED / ZERO WEIGHT. No contribution to risk.

Uncertain: the recorded state does not establish an applicable clean or concerning conclusion.

History and relationships

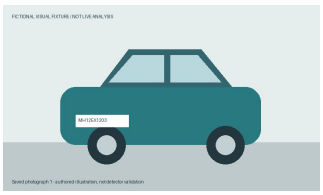

03 / Internal photograph reuse

1 no concern found

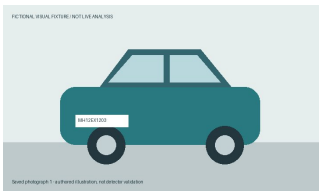

Compare submitted photographs with the indexed internal evidence corpus.

Evidence examined: Photograph 1

Submitted photograph

Authorized saved reference

Evidence	Measured comparison
Photograph 1	cosine similarity: 0.83; hamming distance: 18; images compared: 12

Similarity is not proof of reused evidence or claimant intent. Reference images are shown only when frozen from an authorized internal record; external filenames are never opened.

Saved decision parameters: duplicate hamming concern = 8; duplicate cosine concern = 0.95; duplicate cosine floor = 0.9; duplicate cosine inconclusive = 0.88

Interpretation: The saved internal comparison remains below the recorded concern thresholds.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

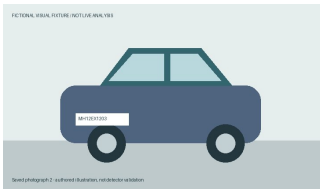

04 / External photograph matches

1 no concern found

Look for matching photographs in the configured external reference corpus.

Evidence examined: Photograph 2

Submitted photograph

Authorized saved reference

No authorized image was frozen in this snapshot.

Evidence	Measured comparison
Photograph 2	cosine similarity: 0.83; hamming distance: 18; corpus size: 24

Similarity is not proof of reused evidence or claimant intent. Reference images are shown only when frozen from an authorized internal record; external filenames are never opened.

Saved decision parameters: external hamming concern = 8; external cosine concern = 0.95; external cosine floor = 0.9; external cosine inconclusive = 0.88

Interpretation: The saved reference-corpus comparison did not reach its concern thresholds.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

05 / Shared identifiers

1 no concern found

Inspect recorded identifier relationships; a relationship does not establish intent.

Evidence examined: Case / linked records

1 recorded linked case(s); the graph shows up to four. Shared identifiers have innocent explanations and are not proof of fraud.

Saved decision parameters: min shared identifiers = 2; min vehicles per claimant = 3

Interpretation: A single shared contact has innocent explanations; this relationship does not establish fraud.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

06 / Earlier inspection link

1 no concern found

Compare linked underwriting and claims evidence where a baseline exists.

Evidence examined: Case / linked records

Saved sequence	Date / days before claim	Recorded severity
Observation 1	2026-10-01T08:00:00+00:00	minor

Dates and severity labels are shown as recorded. No continuous physical damage percentage is inferred from labels or image area. Missing chronology or a comparable scale prevents a severity plot.

Saved decision parameters: window days = 30

Interpretation: A dated earlier inspection is recorded; it is not a certificate of an undamaged vehicle.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

07 / Damage history

1 no concern found

Compare recorded damage severity across linked observations.

Evidence examined: Case / linked records

Saved sequence	Date / days before claim	Recorded severity
Observation 1	2026-10-01T08:00:00+00:00	minor
Observation 2	2026-10-19T08:00:00+00:00	moderate

Dates and severity labels are shown as recorded. No continuous physical damage percentage is inferred from labels or image area. Missing chronology or a comparable scale prevents a severity plot.

Saved decision parameters: same panel window days = 90

Interpretation: Saved observations use ordered severity labels, not a physical damage percentage.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

Provenance

08 / Capture metadata

1 concern

Examine extracted capture metadata and its availability or consistency.

Evidence examined: Photograph 1

Evidence	Captured time	GPS	Camera	Software
Photograph 1	2026-10-19T08:00:00+00:00	Recorded	Fixture camera	Adobe Photoshop

Evidence	Usable comparison
Photograph 1	gps distance km: 0.4; exif present: True

Missing metadata does not imply manipulation. Capture time and GPS are extracted fields, not independently authenticated facts.

Saved decision parameters: metadata gps concern km = 100.0; metadata timestamp inconclusive hours = 48.0

Interpretation: The saved Software field names an editing tool; this has benign explanations and does not prove manipulation.

Saved contribution: 0.5950 · registered weight 0.7.

Uncertain: this observation does not establish the full application or intent.

09 / Content credentials

1 no concern found

Inspect available content provenance credentials; absence is not proof of manipulation.

Evidence examined: Photograph 1

Evidence / declaration	Recorded observation
Photograph 1	credentials present: True; validation state: Valid

Interpretation: Embedded credentials validated under the saved local policy; the incident itself is not verified.

Saved contribution: 0.0000 · registered weight 0.1.

Uncertain: this observation does not establish the full application or intent.

10 / Experimental synthetic image check

1 inconclusive

Experimental synthetic-image screening, excluded where its weight is zero.

Evidence examined: Photograph 1

Evidence / declaration	Recorded observation
Photograph 1	artificial probability: 0.87; execution state: inconclusive

Experimental / excluded where the saved registered weight is zero. Raw classifier outputs are not fraud probabilities. View labels do not verify the same vehicle.

Interpretation: An experimental classifier output was saved but excluded from routing.

EXCLUDED / ZERO WEIGHT. No contribution to risk.

Uncertain: the recorded state does not establish an applicable clean or concerning conclusion.

11 / Experimental image editing check

1 inconclusive

Experimental editing screening, excluded where its weight is zero.

Evidence examined: Photograph 1

Evidence / declaration	Recorded observation
Photograph 1	combined score: 0.24; calibrated: False; concern threshold: 0.6; execution state: inconclusive

Experimental / excluded where the saved registered weight is zero. Raw classifier outputs are not fraud probabilities. View labels do not verify the same vehicle.

Interpretation: Experimental image-edit observations were excluded from routing.

EXCLUDED / ZERO WEIGHT. No contribution to risk.

Uncertain: the recorded state does not establish an applicable clean or concerning conclusion.

Context

12 / Scene, time and place

1 no concern found

Compare available time, place, weather and scene observations.

Evidence examined: Photograph 1

Evidence / declaration	Recorded observation
Photograph 1	declared time basis: aware_instant; observed shadow direction: NW; expected shadow direction: NW; shadow bearing difference deg: 12; weather status: consistent

Structured comparison of saved observations only. No damage boxes, heatmap, map or annotation was available; none has been invented.

Saved decision parameters: shadow bearing concern deg = 90.0; elevation short above = 45.0; elevation medium above = 20.0; civil twilight deg = -6.0; lighting night conflict deg = 15.0; rain mm = 1.0; rainy hour mm = 0.5; dry mm = 0.1; overcast cloud pct = 70.0; clear cloud pct = 30.0

Interpretation: Recorded scene observations are compatible with the declared account in this controlled fixture.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

13 / Damage and claimed amount

1 no concern found

Assess whether recorded damage observations support the incident account.

Evidence examined: Case / linked records

Evidence / declaration	Recorded observation
Case-level observation	claim amount inr: 48000; severity used: moderate; observed severities: ['moderate']; ratio to ceiling: 0.96; ceiling tolerance: 1.5

Structured comparison of saved observations only. No damage boxes, heatmap, map or annotation was available; none has been invented.

Saved decision parameters: ceiling tolerance = 1.5

Interpretation: The saved severity label and claim amount are compared without converting damage area into a physical percentage.

Saved contribution: 0.0000 · registered weight 0.7.

Uncertain: this observation does not establish the full application or intent.

14 / Experimental baseline check

1 inconclusive

Inspect observations against the actual underwriting declaration.

Evidence examined: Case / linked records

Evidence / declaration	Recorded observation
Case-level observation	declared condition: Disclosed damage; contradicting severity: minor; execution state: inconclusive

Experimental / excluded where the saved registered weight is zero. Raw classifier outputs are not fraud probabilities. View labels do not verify the same vehicle.

Interpretation: No absence-of-damage declaration was inferred from the underwriting application.

EXCLUDED / ZERO WEIGHT. No contribution to risk.

Uncertain: the recorded state does not establish an applicable clean or concerning conclusion.

Economic

15 / Garage billing pattern

1 no concern found

Summarize the repairing garage billing pattern against a research benchmark.

Evidence examined: Case / linked records

0–100% of this garage’s recorded claims; not risk

Observed share: 25%

Rule benchmark: 40%

Evidence	Recorded amount / pattern
Case-level observation	amount: 48000; band low: 45000; band high: 50000; garage claim count: 12; garage in band pct: 25; minimum garage claims: 5

The implemented billing band is a research benchmark, not a verified legal rule. This is a garage pattern, not a claimant fraud probability.

Saved decision parameters: threshold band low = 45000.0; threshold band high = 50000.0; threshold garage concern pct = 40.0; threshold min garage claims = 5

Interpretation: The recorded garage share does not exceed the implemented research benchmark.

Saved contribution: 0.0000 · registered weight 1.0.

Uncertain: this observation does not establish the full application or intent.

How the assessment was calculated

Sum registered weight × finding confidence for every concern finding. Pass and inconclusive findings add zero; repeated findings are added individually.

Saved heuristic score: 0.85. Not a fraud probability.

Threshold comparison uses the unrounded concern sum: 0.85. Rounded display values do not move a threshold.

Check	Eligibility / exclusions	Recorded contribution / routing basis
Internal photograph reuse	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
External photograph matches	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Registration reading	Eligible saved concern(s)	Saved contribution: 0.2550 · registered weight 0.3.

Check	Eligibility / exclusions	Recorded contribution / routing basis
Capture metadata	Eligible saved concern(s)	Saved contribution: 0.5950 · registered weight 0.7.
Content credentials	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 0.1.
Shared identifiers	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Scene, time and place	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Damage and claimed amount	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 0.7.
Garage billing pattern	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Earlier inspection link	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Damage history	No eligible concern contribution	Saved contribution: 0.0000 · registered weight 1.0.
Experimental synthetic image check	Excluded: zero weight	EXCLUDED / ZERO WEIGHT. No contribution to risk.
Experimental image editing check	Excluded: zero weight	EXCLUDED / ZERO WEIGHT. No contribution to risk.
Photographic coverage	Excluded: zero weight	EXCLUDED / ZERO WEIGHT. No contribution to risk.
Experimental baseline check	Excluded: zero weight	EXCLUDED / ZERO WEIGHT. No contribution to risk.

Saved thresholds: clear < 0.3; request evidence < 0.6; desk review < 1.0; investigation at or above the last threshold.

Material limitations and next reviewer action

Coverage measures execution, not risk. Missing metadata is not proof of manipulation; similarity and shared identifiers are not proof of fraud. Automated routing is separate from human approval or rejection.

- Controlled authored fixture only. The graphics do not demonstrate improved analysis accuracy.
